Describe the educational and informational objective of the program and how it meets the definition of Core Programming			
<p>Career Day is a television program that introduces young adults to career exploration and awareness. Students often do not know what they want to do and are unsure of potential interests they may have that could be a career. Career Day provides an avenue to view experts in their respective fields as they discuss their work, the education/training to prepare for the job, and experiences that led them to choose their career. To encourage students to make informed decisions, adults must be introduced to career awareness, such as the concept that success in most careers requires education and training (Fouad, 1995). As the National Alliance of Business recommended in its 1999 publication Preparing Young People for Tomorrow's Workplace, "Middle school is an ideal age at which to expose students to the challenging world of work" (p.5). The program's motivational and inspirational message of each guest empowers audiences of all ages to investigate career opportunities, which has been proven to enhance academic performance, facilitate high school completion and encourage post secondary education (Broadening Career Horizons for Students in At-Risk Environments, O'Brien et al (1999). Each segment of Career Day delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, dedication, and perseverance children can apply to their lives.</p>

Teen Kids News is a new way of building the television station news franchise and meeting children programming requirements. The first kid-to-kid newscast, created for and delivered by children. Hosted by a diverse news team made up of young "journalists" reporting from a professional news set and from the field on stories of interest and educational value to its own audience. Family Viewing program environment aimed at kids 13-16 and Tweens watching along with their parents, particularly moms. Cast of approximately 6 on-air kids selected from top young professionals in the New York metropolitan area with major acting credits. Emphasis on diversity and experience to develop a cast of engaging and intelligent African-American, Hispanic, Asian and Caucasian Asian male and female child actors who interact with each other-and connect to the viewers. Meets the need of children whose sophistication and curiosity about their world is motivated by the information explosion. They have the interest. They have opinions. But they also have a healthy skepticism about adult explanations, which tend to be either condescending or overly complex. 90 seconds Local News Insert available. FCC qualified (E-I)Educational, Informational children's programming.
